

SMART FOIL PRINTING

Advanced Coding Solution for Blister Foil

→ Vision & Mission

Utopia Optovision develops machine vision solutions for the pharmaceuticals sector for dedicated applications. Stringent quality management and innovative technology are the cornerstones of all our operations.

This translates into an ability to deliver quality products at competitive prices, one of our unique strengths. With in-depth experience in advanced Electronics, Mechanical, Optical systems design, development & manufacturing .

Utopia Optovision has the strategic and engineering capability to meet the complex needs of pharmaceuticals majors both in India and overseas.

Built on Trust & Reliability

With a focus on accuracy and consistency, we deliver reliable serialization and traceability solutions that strengthen product integrity and supply chain confidence.

Innovation with Purpose & Precision

Delivering innovative and precision-engineered solutions that empower secure, efficient, and future-ready pharmaceutical traceability.

→ **UTOPRINS 300**

- Multi-Head Static Data Printing & Inspection

PRINTER & CAMERA UNIT

- Existing Blister pack machine will run with foil.
 - TIJ printer will print static/fix data on foil.
 - Camera will inspect static/fix data on foil.
 - Pass blisters are going for further activity.
-
- If camera will detects any wrong details on foil.
(i.e. Missing print lines/ Miss one line of static/fix data, Wrong & missing Pre-printed Barcode/Pharmacode/2D code) then send signal to Blister pack machine PLC to rejectfail detected blister.

Our Strength

- In-house Design, Development & manufacturing of Electronic, Electrical, Mechanical Software & Optical systems.
- 25 + years of experience of handling Pharmaceutical Packaging lines & Industrial Automation systems for various applications.
- Capable of providing customized solutions for critical applications for strategic customers.
- More than 500 installations on 250+ lines.
